		FCC, CE
		Energy Star 5.0, WEEE, RoHS
Operation	OSD Language	16 Langs
Accessories		Power Cord, D-SUB cable
		Audio cable, Quick Guide
	Option	

FEATURES

Dynamic Contrast Ratio

The contrast ratio is defined as the ratio of the luminance of the brightest color (white) to that of the darkest color (black) that the system is capable to produce. Working with the dynamic contrast technology, HYUNDAI IT monitors are bringing the benefit of showing the maximum contrast the panel is physically able to achieve disregarding the luminance level of the screen contents.

Power Saving

Meeting the requirements of "VESA DPMS" (Display Power Management Signaling) and the "Energy Star", the power consumption is reduced to a minimum.

Convenience Features

Following their multimedia character HYUNDAI IT monitors are already equipped with built-in stereo speakers. The automatic adjustment function ensures the optimal picture set-up at the push of a button.

Compatible with Windows 7 | EPEAT SILVER | ENERGY STAR
